

## Stampin' Up Multilingual Color Table

All color names are obviously (c) Stampin' Up. I've just created this list to give a structured overview on all the colors and their different names in 4 (English, German, Spanish, French) languages, since Stampin' Up –to my knowledge – does not provide one. This table contains all colors featured in the 2013/2014 catalogue, including In Colors.

The little fields in front of each color are for you to maybe stamp a solid dot in each color you have. So you not only have an overview of the names, but also the colors itself.
